

STARBASE *Oklahoma*

4200 N. 93rd E. Ave, Tulsa, OK 74115-1632
(918) 833-7757, DSN 894-7757, FAX (918)833-7769

*STARBASE Oklahoma is a non-profit educational program,
whose goal is to add value to our state and America by training "at risk" youth
who are from minority groups and low socio-economic areas through programs that focus on
aerospace science and math, computer literacy, drug demand reduction and goal setting skills.*

Teachers,

We want the STARBASE experience to be as enjoyable as possible or all involved, therefore we are asking you the home district teacher to follow a few guidelines.

- Please supervise your students at lunch time and on bathroom breaks. Students must be within sight of a supervising teacher at all times.
- Try to arrive at a consistent time each morning. We realize this is not always in your control.
- Take the time to go over a few simple rules with your students such as:
 - Walking instead of running,
 - Taking care of property,
 - Being courteous to others,
 - Taking turns,
 - etc.
- Take an active roll in the STARBASE class, assist your children in the activities, enjoy the curriculum with them. Please don't use the time with STARBASE as your planning time.

STARBASE wants this time to be interactive and hands on with teachers and students.
